## Development of The QEP Topic

---

An initial meeting was held in January of 2015 between the Associate Provost for Educational and Student Affairs, the Assistant Provost for Interprofessional Initiatives and the Director of the Office of Institutional Effectiveness. During this meeting a plan was developed to seek input from all relevant institutional stakeholders about ideas for our next QEP. The plan involved:

- 1) Analysis of institutional data relevant to our prior QEP
- 2) Development of a presentation highlighting successes and shortcomings of our previous QEP and providing an overview of SACSCOC reaffirmation processes
- 3) Identification of stakeholder groups to present this information
- 4) Solicit ideas from the stakeholder groups for our next QEP

The stakeholder groups identified were the Education and Student Life Advisory Committee, the Interprofessional/Interdisciplinary Advisory Council, the Student Government Association, the Faculty Senate, the Hospital Quality Operations Committee, the Dean's Council and the COM Curriculum Committee.

The data analyses and idea solicitation/presentations were conducted throughout the Spring of 2015.
